Welcome to Silicon Valley Shelving (SVS) where we have been serving a diverse customer base since our inception in 1987. SVS was founded by a group of material handling salespeople who thought their customers deserved better treatment than their former employers could provide.

The founding principle from the inception of the company in 1987 is still in place today. Using a dedicated, knowledgeable and experienced sales force, we are driven to help all our customers save the most money, space and time when storing, organizing or transporting material. Each customer has their own assigned expert to help them on-site, and an inside sales coordinator to assist the on-site rep to coordinate labor, delivery, freight, assembly or any other service that a customer may need. We work closely with you to understand your requirements and provide the best material handling solution; whether you need help in your warehouse, cleanroom, stockroom, laboratory, production floor, offices, data center, shipping/receiving, parking garage, loading dock, anywhere.

SVS is not a catalog order company or an online order company. We provide a comprehensive array of products and services, through a knowledgeable, experienced sales force.

Our value-added services build long-term, mutually beneficial relationships with the customers we serve. We provide products, for sure, but we also provide planning, engineering, delivery, assembly, and installation, to complete your projects on time and within budget.

SVS is committed to helping customers save space, save time, and save money. We would love the opportunity to do this for your business. We are here, waiting for the chance!
